

Itchy Paper

*for 8-20 performers with scissors
Music with sounds of cutting paper and voices*

*Cut all lines of this score with scissors
following gradual changes of colors;
Green-Blue-Magenta-Red*

*All lines start from an edge of cut paper and ends with another edge
when it is cut. Don't cross other lines.*

*A thinner line is cut with a slower speed, a thicker line is cut with a
faster speed. Cut each line in one direction.*

The performers stand in a row.

*Optionally, when any letters on lines are cut, the performers pronounce
phonetically with soft voice. Numbers can be uttered as a word.*

*Print this colored score on the same sheets (no smaller than A4) for each
performer. Each performer has the similar/same type of scissors.*

Performers has one leader among them.

*The leader gives a cue to start cutting the papers at the beginning. Each
performer proceeds the cutting with their own relatively fast speeds,
but not too much faster or slower than the other performers, then
synchronize to cut the "Heart" shape. All performers wait at there, the
leader gives the second cue to start cutting it.*

Duration is 10-14 minutes.
